TRIBUTE TO ALL VETERANS EC-47 MEMORIAL PLAZA PROGRAM 4x8 PAVER ORDER FORM

A Vietnam War replica EC-47 *Electric Goon* aircraft, installed in front of the Goodfellow AFB wing headquarters on Oct. 28, 2005, stands in tribute to the intelligence, surveillance and reconnaissance mission that has been the base's training focus since 1958.

Supported by a grant from The Freedom Through Vigilance Association (FTVA), the local FTVA Heritage Chapter is sponsoring the addition of a plaza of memorial pavers adjacent to the aircraft.

Nearly 1,000 of the 4x8 and 8x8-inch pavers with bronze engraving plates are available to honor veterans of all services and dates of service.

Memorials may be as simple as listing the veteran's name, branch and dates of service on the four-line rectangle bronze plate - to adding a meaningful service emblem and additional service-related details on the larger seven-line round bronze plate. Engraved plates will be installed and dedicated during annual Vietnam War Veterans Day ceremonies held at the wing headquarters flagpole area.

4 X 8 Inch Paver with 1⁷/₈ X 4³/₄ Inch Engraved Bronze

Willamette Color Only Maximum 4 lines of text Maximum 24 characters/spaces per line

Print or type one letter/number/character per box. Spaces and punctuation marks count as one letter. Inscriptions are subject to approval. Engraving is in all capital letters. Requests for placement in a specific paver location are allowed using the online ordering system or by special request to the paver coordinator. See the paver scale drawing at: vietnam50thcpp.com/pavers.
